URGES 18 TO 45 AS DRAFT AGE.

Washington, June 15.—Three million Americans will be under arms by next Aguust 1st, the Senate Military Committee was told today by Provost Marshai General Crowder.

Extension of the age limits in the army draft will be necessary, Gen. Crowder said, if the present rate of draft calls is continued. He estimated that all the men in class one would be exhausted soon after next January

Class One Called On.

Class One Called On.

Gen. Crowder said that 1,247,000 of the 2,428,000 men placed in class 1 already have been called to the colors. He estimated that some 400,000 additional men for the first class would be secured from the men who registered last June 5 and that another 260,000 will be added by the reclassification of men in the reexamination of the questionnaires now being made.

Repuisitions from the draft to complete the 2,000,000 total by August 1, Gen. Crowder said, have been made. Of these 2,000,000 will be draft registrants and the others volunteers and National Guardsmen.

SUGAR REGULATIONS.

Fred M. Sackett, Federal Food Administrator, issued directions today to all person selling sugar in the State of Kentucky that the following regulations become effective at once:

1. Retail sales of sugar for house-

hold purposes must be limited to two (2) pounds to city and town residents, and five (5) pounds to rural and city

2. Retail sales of sugar for can 2. Retail sales of sugar for canning and preserving must be limited
twenty-five (25) pounds at one time,
and then only when accompanied by
a signed certificate on the Government from pledging the customer to
use that particular sugar for the particular purpose of canning and preserving food.

2. Customers are expected to lim-

2. Customers are expected to limit the use of sugar for household pur-poses to three (3) pounds per month

per person.

4. Manufacturers using sugar can suly buy sugar through the Sugar Division of the Food Administration, 701 inter-Southern Building, Louisville Kentucky, from which Department they must secure sugar certificates. This applies to operators of soda founties candy surue, soft drink and ice tains, candy, syrup, soft drink and ice-cream makers as well as every other article mds in whole or in part of

5. In hotels, restaurants and all public eating places sugar must be kept covered and closely watched at all times to prevent waste. Not more than two cubes of BUGAR to be served to each person for a pot or cup of coffee, or tea. Granulated or powdered sugar to be served by COUNTER MAN, or WAITER for berries, sereals and fruits.

and fruits. The above regulations, some of which have been in force for several weeks were made public and forwarded to all parts of the State upon receipt of urgent telegrams from Mr. Hoover at Washington, who wired the developments in the sugar situation in the last few days made increased conservation in sugar imperatively necessary. He stated that our difficulties for sugar arise out of the submarine situation, and the iscal office concludes that many of the ships recently sunk off our Eastern coast were sugar laden it is impossible to replace sugar destroyed in this way and is but one more evidence of the war brought home to our people. For each new effort to injure this country, above regulations, some war brought home to our people. For each new effort to injure this country, the American people. the American people will only litch their belts one notch together and this sinking of the ships is the cause of our tightening up on sugar con-servation.

JOHNNY DAMRON BADLY WOUNDED IN FRANCE THE PEOPLE ARE HELPING

EIGHTEEN-YEAR-OLD BOY WHO ENLISTED AT LOUISA IN JULY LAST YEAR.

Johnny, son of Mr. and Mrs. Sam Damron, living near Fort Gay, W. Va. was severely wounded in France last week. A telegram was received by the parents on Thursday and they were informed that prompt notification would be sent if any serious change occurred in his condition. Nothing further has been received, so they feet that he is getting along all right. The boy is only 18 years old. He enlisted at Louisa last July and was sent to the telegraph of the process of the parents.

SCHOOL CENSUS REDUCED. Frankfort, Ky., June 15.—The school census has been greatly reduced by the new law, reducing the school age from 20 years to 15 years. The old law provided that there must be 60 pupils in a school district and in districts where there are not this number of pupils the district must be consolidated with another district. Only cases where it is impossible to consolidate districts can emergency districts be declared.

ON TORPEDOED SHIP

NINETEEN-YEAR-OLD WIRELESS AUSTRIANS STOPPED BY ITAL-OPERATOR FROM MORGAN COUNTY WRITES THRIL-

LING ACCOUNT.

Following is an interesting letter from Arthur Murphy, wireless operator on the President Lincoln, a large U. S. ship sunk by a German submarine on May 21, probably about 700 miles from France, on a return trip. Murphy is a native of Morgan county. Ky. which adjoins Lawrence on the southwest. He is a bright young fellow only 19 years of age and was raised at Cannel City, attending the graded school at that place, and later becoming telegraph operator and agent at Cannel City for the Ohio & Kentucky Railway, of which M. L. Conley is general manager. Murphy's father is road

master of the O. & E.

This Kentucky mountain lad gives the most comprehensive description that we have yet read:
Aboard U. S. S. Great Northern,

Hoboken, N. J., June 12, 1918. Dear Mother:-

Well, I suppose you have heard all about our little trou ble with the Ger-

about our little trouble with the German U-boat. That German sure did a neat little job on us.

We left France on the President Lincoln May 29th, about 4 p. m., and were 26 hours out on May list, when the U-boat sent daylight thru us with his little torpedoes. It was about 9 a.m., on a beautiful sunshiny day when he hit us; I was in the radio room at the time, working on the motor-generator set, when suddenly someone on the deck outside the radio room yalled "Submarine periscope. Torpedo;" I jumped to the port window and looked out just in time to see a torpedo jumped to the port window and looked out just in time to see a torpedo streaking right into us. It hit with a big crash and loud explosion. The ship-quivered in every timber and keeled over to an angle of about 45 degrees. I thought we would go down instantly. I grabbed my life preserver which hung on a bunkhead near me and ran to my station down on the main deck which was three decks below the one on which the radio room was located. If it had been left to me I should have referred to stay where I was, for the water was nearly up to the main deck. water was nearly up to the main deck. Before I reached the main deck an-other torpedo hit us near the stern, the first one having hit us forward; I then first one having hit us forward; I then thought the Germans were going to sink the ship without giving anyone a chance for his life. When I reached the main deck which was slanting like a "chute-the-chutes" of Coney Island and saw the water lapping at the very rail, I guess my knees shook just a little, for I had no thought of getting away with my life.

Near my station was a coal hatch leading to the coal bunkers below where the torpede had hit. The water was rushing up the hatch and some firemen who had been working in the bunkers were struggling in it naif drowned and trying to get on deck.

The ship was evidently going to stay up longer than I first thought; we threw the life rafts over the rall and held them to the side of the ship with lines. After the first shock everyone seemed to get their nerve back and (Concluded on fourth page.)

TO WIN THE GREAT WAR

I desire publicly to give credit to the I desire publicly to give creat to the Business Department of the Kentucky Normal College for addressing 2,000 pieces of the mail matter already sent out by me in the War Savings campaign now on. They did the work quickly and correctly, and purely as a patriotic service. No expense mon ey is provided for this work, but non is needed where the spirit of patriotism has reached the height that has been attained here. Also I find people throughout the county ready to per-form gladly any duty assigned to them in this great crisis. M. F. CONLEY

TWO BIG DRIVES

IANS AND GERMAN DRIVE ALSO FALLS DOWN.

The most important war news since week ago is the big drive made by a illion Austrians against Italy. They made very little progress and were lit erally slaughtered by the Italians, the French and British. If the Austrians fall it is thought they will have a rev-olution in Austria.

The Germans have made a vicious

thrust at Rheims, but they were stopped with enormous losses. On the whole the situation is mos

ncouraging for the Allies. The German submarines along the U. S. coast have done a small amount of damage. It is reported that one and possibly two of the submarines have been sunk.

WAYNE COUNTY CONVENTIONS

Democratic executive committee Democratic executive committeemen from the seventh judicial circuit comprising Wayne, Logan and Boone counties, in session at Kenova Tuesday, called a convention for August 14 at Kenova, the purpose of which is to select a Democratic candidate for the circuit judgeship. Three possible candidates have been mentioned by their supporters, being Elba Wilcox, of Wayne; Mr. Bland, of Logan, and Mr. Estep, of Boone, thus dividing the Estep, of Boone, thus dividing the counties in the circuit.

The republicans of the circuit will also hold a convention on the same date for the same purpose. Judge P. H. Napier is said to be a candidate to succeed himself while Judge Hogg-sett, of Logan, is said to be his only opponent.

IMPORTANT AND URGENT.

3.—It has been found from recent investigations from this office that many
men were placed in class four on decenters where it was clearly above.

pendency where it was clearly shown that the registrant, under existing cir-cumstances, was only entitled to be placed in class one.

4.—Many local boards have failed to

carefully consider the provisions of the War Risk Insurance Act, in regard to family allowances.

5.-In the drive which will be made this month to increase class one it will be necessary for local boards to have the cooperation and assistance of the Government Appeal Agent and the Le-gal Advisory Board, with the end in view that class one in every local board will be raised to the national average percent of their registrants

placed in class one. The Legal Advisory Board has been furnished complete instructions in regard to the method of reclassification and June 24 to 20, inclusive, has been set aside as "class one week," during which time the local board for Lawwhich time the local board for Law-rence county will examine all doubt-ful classes, having in mind the pro-visions of the War Risk Insurance Act. In this work the Local Board will Act. In this work the Local Board will have the assistance and advice of the Government Appeal Agent, C. F. See, Jr., and the Legal Advisory Board, Messrs A. J. Garred, Clyde L. Miller, and Wm. Fulkerson.

It is insisted that the status of the number of men in class one in this Local Board is considerably smaller than the state average and it is hoped that a re-examination and reclassi-

WAR SAVINGS DAY

A MEETING AT EVERY SCHOOL HOUSE AT 2 P. M. WILL BE HELD ON THAT DAY.

The War Savings Stamps plan was originated by the United States offi-cials for at least three purposes:

To impress the people with the importance of saving.

To give everybody, even the child-ren, a real opportunity to help win this war by lending the Government some of their savings.

To raise two billions of dollars for

war purposes.

These stamps and certificates are to be on sale at all postoffices and banks and many stores and other places until Dec. 31, 1918. They will matter and be paid back to the owners with the content of the content interest compounded on the content interest content interes and be paid back to the owners with four per cent interest compounded en-Jan. 1, 1923. If any holder wants his money before that, he can cash is at-any time on a basis of three per cent interest. So you are in no danger of buying more than you might be able to carry, because you can cash in at any time. Also, you can not less it. If registered no one can steal it.

If registered no one can steal it.

No one person is permitted to own more than one thousand dollars worth of War Savings Stamps. But everybody who is able to invest this much should do so. \$1,000 worth costs \$53.4. \$5.00 costs \$417. \$100 worth costs \$53.40. A \$5.00 certificate costs \$4.17. The Government wants every man and woman to agree to save as much as possible and invest in these W. S. S. each month during the balance of this year. The young men are being called to give up their lives for their country. Those not eligible to lay their lives on the altar are called on only to save and lend their money to their country try at compound interest.
